

SUNSET AT THE SABINA BACK WATER MINE PROJECT IN NUNAVUT

No this is not a tourism brochure! but rather the location of our most northerly project to date. CGT Industrial (Clark, Gisborne & PTW) has been awarded some of the Early Works at the Sabina’s Back River Gold Mine Project in Nunavut. This scope includes assistance on the construction of a truck shop along with the related preparatory work.

My wife just nudged me and said, "You weren't even listening, were you?" I thought, that's a strange way to start a conversation.

WE'RE BACK! GISBORNE RETURNS TO COPPER MOUNTAIN ONCE AGAIN TO CONTINUE AN 11 + YEAR RELATIONSHIP WITH THE MINE

We were awarded the contract to add a third ball mill to the current crushing circuit at the mine. The pictures below show some of the significant formwork / concrete work Gisborne completed in preparation for the installation of the new mill. With the bulk of the civil work completed, we have moved on to the structural, piping and mechanical work required to install the mill.

45 ktpd Mill Expansion 45 KTPD = 45,000 tons per day)

After winning the game, I decided to throw the ball to the spectators. Apparently that's frowned upon in bowling.

GISBORNE PROVIDING PROJECT SUPPORT AT THE BRUCEJACK MINE IN NORTHERN BC

Gisborne played a major role in the initial construction of the Brucejack Mine, located north of Stewart BC, from 2014—2017, and we have now returned to provide support for new projects at the mine. To refresh our memory here are a few pictures...

Yes this is the same place! The 'location is in the 'Golden Triangle' including a traverse across a glacier to access the mine.

Interior picture of the mill building (shown in the other photos) equipment we previously installed.

My local gas station started charging money just to put air in your tires When I commented that this had been free for decades, the attendant just looked at me and said "that's inflation for you".

FIRE PROTECTION

Our **Alberta Fire Protection Division** is busy hiring for an upcoming major project that we will feature in our next edition. **Valerie Lefebvre** has been appointed Project Manager for this project and will be working closely with **Andrew Penner**, our Alberta Fire Protection Division Manager. We have also promoted **Jason Weiss** to the position of General Foreperson.

Our **British Columbia Fire Protection Division** continues to be busy with over 20 active projects and several other large projects that have been awarded to us that will start over the next 1 - 3 years. We are in the process of hiring a new Project Coordinator for our BC Division to support the team and we are looking to expand our Design Department with the hiring of a Senior Designer with 3D Design experience.

Our next edition will have a more in-depth report on our Fire Protection Divisions.

Gisborne recently made a significant donation to the BC Children's Hospital Fund through the annual Hooked On Miracles Fishing Tournament & Pie Toss events that we support.
